

M LIST PARTNER

WESLEY DESIGN INC.

Wesley Design Inc. has provided clients, both in Orange County, California and nationally, with full service residential design. We design custom furnishings that blend with our casually elegant living spaces; we also collaborate with architects and builders on the selection of the architectural details. This dual combination gives the client a very personal and unique home.

Susan Wesley, owner of Wesley Design Inc. uses her extensive background in art, antiques, architecture and design to provide uniquely styled spaces to suit the clients discriminating tastes and style. "My goal is to create a classic design that is a reflection of the client and will delight them for years to come."

Susan was recently featured in Orange Coast Magazine, California Homes Magazine and on NBC Open House in 2009. We were also a chosen design firm for Casa California Showcase House, thru California Homes Magazine & Philharmonic House of Design where she designed the Spa Retreat. Susan is a professional member of the ASID and a certified interior designer in the state of California. Find out more about Susan Wesley and WDI by visiting the website or calling for a consultation.
