## House of Design

PHOTOS BY KRIS DIAZ

Family Room designed by Susan Wesley WESLEY DESIGN INC.

The Philharmonic House of Design, in its 21st year, has been hailed as an ingenious collaboration between music and design. Southern California's most talented interior designers turn out to showcase their aesthetic creativity for the benefit of The Philharmonic Society. Located in South Orange County, this 7,100 square foot jewel of an estate is on tour through May 19th. The inspirational rooms include a Parisian style nursery that would be right at home in Le Château de Versailles and a charming get-away suite with headboard featuring whimsical sofiel finials.
